

SITUATED amongst the South Shropshire Hills in the Norman town of Clun, the brewery was established in 2007 by partners Jack Limond and Matt Williamson. The original 'nanobrewery' expanded into a fully fledged micro in December 2010, brewing ales using time-honoured methods and premium ingredients.

OUR BEERS:

CLUN PALE is a thirst quenching straw coloured pale ale. Brewed using Maris Otter pale malt combined with a touch of wheat malt, the bitterness is provided by fruity Challenger and aromatic Styrian Golding hops. A true session bitter, the delicate malt sweetness is amply compensated by the zesty hops, providing a lasting bitter finish that demands another pint!

CITADEL is a formidable strong ale which will appeal to the real hop lover. Perhaps more accurately described as an original style IPA, the beer is produced with Maris Otter pale malt and deploys the mighty Green Bullet hop to provide a hefty bitterness. Golden in colour, the rich and fruity malt flavours are met head on by intense hop bitterness and aroma which give rise to a long lasting dry finish.

AVAILABLE IN PINS, FIRKINS AND KILDERKINS.
